What to do if you have Covid-19 symptoms

Symptoms

The most common symptoms are fever, a cough and shortness of breath. Other symptoms include loss of smell or taste, chills, sore throat, headache, general weakness, diarrhoea, or vomiting.

If you have these symptoms, stay at home and contact the health authorities through your health centre (centro de salud) or by calling the following numbers: 900 600 081 | 955 543 060. They will give you instructions on what to do. Then contact the person in charge of Covid-19 cases at your faculty or school at the UGR.

If you get symptoms while on campus at your faculty or school...

ONSET OF SYMPTOMS
If a student, teacher or staff member exhibits these symptoms while on campus at a faculty or school...

ATTENTION & TRANSFER
The person with symptoms will be taken to the faculty’s Covid-19 Room.

NOTIFICATION OF THE CASE
The person in charge of Covid-19 cases at the faculty must be notified by telephone.

IN SEVERE CASES
If the person with symptoms is in a serious condition or has difficulty breathing, call 112.

And remember...

It is important to maintain an attitude of responsibility and solidarity both during and outside classes: always wear a face mask and keep a safe one in hand; respect physical distancing measures; frequently wash your hands and disinfect them using hand sanitiser gel; avoid smoking outdoors (even if physical distancing is possible); and if you need to discard a used face mask, use the waste bins provided.
